## Montažni nastavek za konični nastavek iz nerjavnega jekla

Kategorija: [Pre-assembly adapters](#)

Šifra: **112517RIE**

### Kratek opis

Pre-assembly supports for stainless steel cutting ring fitting, M16x1.5, Pipe exterior Ø 10 mm, AF 17, PN max. 315 bar  
When stainless steel pipes are assembled, they must always be pre-assembled in a hardened pre-assembly adapter.  
They must never be assembled directly in the stainless steel adapter. The cones of the pre-assembly adapters are susceptible to wear and must therefore be inspected at regular intervals to check that they are still true to gauge.  
We recommend using only seamless, soft-annealed, stainless steel pipes made of 1.4571 according to DIN 2391 Part 1 or DIN 2462, tolerance class D4/T3.

### Tehnične Specifikacije

|               |         |
|---------------|---------|
| Navoj         | M16x1.5 |
| O.D. cev [mm] | 10      |
| L2 [mm]       | 15.0    |
| a/f [mm]      | 17      |
| L1 [mm]       | 40.0    |
