## Tlačni regulator »FUTURA-mali«, kompaktni manometer, G 1/4

Kategorija: [Pressure regulators, continuous pressure supply](#)  
Šifra: **142407RIE**

### Kratek opis

Pressure regulator continuous pressure supply »FUTURA-mini«, incl. compact press. gauge, Size 0, G 1/4, PE max. 12 bar, 0.5-10 bar

Diaphragm pressure regulators with self-relieving design and excellent flow rates in modern design for mounting side by side.

By assembling two or more controllers together, it is possible to supply several working air circuits with different output pressures via a single supply line. The regulator button can be latched.

### Tehnične Specifikacije

|                                |                                                                         |
|--------------------------------|-------------------------------------------------------------------------|
| Min. temperaturno območje [°C] | -10                                                                     |
| Membrane                       | NBR                                                                     |
| Merjenje pretoka               | At $P_1 = 10$ bar, $P_2 = 6.3$ bar and pressure drop $\Delta p = 1$ bar |
| Navoj                          | G 1/4                                                                   |
| Ohišje                         | PA66 GF60                                                               |
| Priključni navoj               | Plastic                                                                 |
| Serijska                       | FUTURA-mini                                                             |
| Srednje                        | Compressed air, neutral gases                                           |
| Tesnilo                        | NBR                                                                     |
| Min. krmilno območje [bar]     | 0.5                                                                     |
| Max. krmilno območje [bar]     | 10                                                                      |
| Max. vhodni tlak [bar]         | 12                                                                      |
| Zaslon manometra max. [bar]    | 12                                                                      |
| A [mm]                         | 43.0                                                                    |
| Max. temperaturno območje [°C] | 50                                                                      |
| C [mm]                         | 68.0                                                                    |
| B [mm]                         | 93.0                                                                    |
| Pretok [l/min]                 | 1000                                                                    |
