## Visokozmogljiva pišt. Typhoon, standar.šoba, s kapico I.D. 6

Kategorija: [High-volume blow gun with standard nozzle](#)  
Šifra: **114429RIE**

### Kratek opis

High-volume blow gun »Typhoon« standard nozzle, Aluminium, Operating temperature -10 °C bis 50 °C, PN max. 10 bar, Sleeve I.D. 6

Steplessly adjustable, lightweight and ergonomically optimised high-volume blow gun with exceptionally high blowing power.

The »Typhoon« model, which achieves approximately three times the blowing power of conventional guns, rests comfortably and securely in the hand even when full pressure is applied. Extension tubes can be supplied for blowing out inaccessible points.

In combination with safety nozzles, this blow gun meets a wide range of safety requirements.

### Tehnične Specifikacije

|                             |                    |
|-----------------------------|--------------------|
| Material                    | aluminium          |
| Priključni navoj            | G 1/4              |
| Ročica                      | Die cast aluminium |
| Tip šobe                    | Standard nozzle    |
| Vrsta povezave              | Stem, I.D. 6       |
| Šoba                        | 1/2" - 27 UNS      |
| Max. obratovalni tlak [bar] | 10                 |
